I have other concerns I want to share

North Yorkshire Police relies on intelligence from communities, partners and other law enforcement agencies. Intelligence can come from a range of sources such as a concerned member of the community worried about a neighbouring address, a local authority worker who has received a disclosure from a person, or from police in another area.

The police Community Partnership Intelligence Online Form is a key and safe way for professionals to share information about something that may be concerning them for example:

- Information about a concerning incident
- Suspicious activity
- An unusual exchange between two or more people
- Something that makes professionals feel uncomfortable.

This form is for professionals and volunteers working with young people and adults.

For non-emergency police enquiries call **101**

Visit **northyorkshirepolice.uk** for further information.

The partnership has produced a guide to support the submission of intelligence; the form and the guide can be accessed here:
